

AI Candidate Shortlist Report

Candidate Name	Total Score (Weighted)	Skills (30%)	Experience (25%)	Education (15%)	Projects (20%)	Communication (10%)	Recommend
resume_5_eve_strong.txt	9.0 / 10	9 Eve has most of the required skills, including Python, PyTorch, and AI/ML, but lacks SQL and Deep Learning (TensorFlow) experience.	8 Eve has 12 years of experience, but only 5+ years of experience in data science is required, and her experience is more focused on software engineering.	10 Eve has a Master's degree in Artificial Intelligence from Stanford University, which meets the required qualifications.	9 Eve has impressive projects, including a real-time data pipeline and contributions to major open-source AI frameworks, but they don't specifically demonstrate predictive modeling and NLP skills.	10 Eve's resume is well-written and clearly communicates her experience and skills.	Hire
resume_1_alice_good.txt	8.9 / 10	9 Candidate has most of the required skills, but TensorFlow is missing from the resume.	8 Candidate has relevant experience in data science, but the role at Facebook seems less relevant compared to the role at Google.	10 Candidate has a Ph.D. in Computer Science from Stanford University, which meets the qualification requirement.	9 Candidate has a notable project with 500+ GitHub stars, but it's not clear if it's directly related to the job requirements.	9 Candidate has excellent communication skills, as evident from presenting findings to the executive board quarterly.	Hire
resume_3_charlie_partial.txt	2.3 / 10	2 Charlie has basic Python skills, but lacks advanced skills like SQL, Machine Learning, and Deep Learning.	2 Charlie has only 1 year of experience as a Junior Software Developer, which is far from the required 5+ years of experience in data science.	2 Charlie has a BSc in Computer Science, but the required qualifications are a Master's or Ph.D. in Computer Science, Statistics, or related field.	2 Charlie's projects, a simple calculator and a personal blog, do not demonstrate advanced data science skills or experience.	5 Charlie's resume is clear and easy to understand, but lacks detail and context.	No Hire
resume_4_dana_mismatch.txt	0.5 / 10	0 The candidate lacks any coding or technical software development skills required for the position.	0 The candidate's 10 years of experience in retail sales does not align with the 5+ years of experience in data science required for the position.	0 The candidate's MBA in Marketing does not meet the qualifications of a Master's or Ph.D. in Computer Science, Statistics, or related field required for the position.	0 The candidate's projects do not demonstrate any data science or technical skills relevant to the position.	5 The candidate's resume is well-written and easy to understand, indicating good communication skills.	No Hire
resume_2_bob_bad.txt	0.2 / 10	0 The candidate lacks the required	0 The candidate's experience as a Cashier at a	0 The candidate's High School Diploma does	0 The candidate has no relevant projects to	2 The candidate's self-assessment of being 'good at talking to peoples' is vague	No Hire
